

## **ACCELMED Launches a New, Learner-friendly, Expanded, and Improved Website**

Indianapolis, Indiana – September 16, 2011 – ACCELMED, a medical education company devoted to providing an extensive array of customized continuing education activities for physicians, pharmacists, and nursing professionals, has launched a new and substantially enhanced Website at [www.accelmed.org](http://www.accelmed.org).

The new Website incorporates a reorganized, streamlined look that will provide an expanded experience to both healthcare professionals managing their continuing education curriculum and individuals wishing to know more about ACCELMED as a medical education company.

The new ACCELMED site is designed to be a valuable resource to healthcare professionals by making it easier than ever to view, register, and add educational programs. Personalized features include a new and improved calendar that allows users to customize their educational experience according to their desired therapeutic interests.

The new Website also includes expanded sections on the ACCELMED approach to medical education, including ACCELMED services, program case studies, clinical experience, strategic analysis and outcomes, leadership and bios, and partner organizations.

The following are some highlights of the changes:

- Fast and easy program registration
- Individualized homepage based on your preference settings
- Notifications of new activities
- CE credit goal setting, tracking, and reporting
- Quick polling comparing your answers to those of your peers
- Customizable news feeds
- Personalized educational calendar
- Schedule of important medical association meetings
- Sharing on Facebook, Twitter, and LinkedIn

Robin Murray, ACCELMED President says, “We feel strongly that our new Website not only provides healthcare professional learners with an enhanced and valuable Web experience, but it also provides potential partners and industry supporters with valuable information about our company. The launch of our new Website is consistent with our mission of providing a rewarding environment that produces innovative ideas with the goal of improving healthcare practice, patient outcomes, and lives.”

ACCELMED is a wholly owned subsidiary of FORCE Communications. For more information, please call Bob Diehl at (215) 910-0090 or explore the ACCELMED Website at [www.accelmed.org](http://www.accelmed.org).
